Claims 47-91 are pending in this application.

DETAILED ACTION

1 Claims 47-91 are allowed.

STATEMENT OF REASONS FOR ALLOWANCE

1 The following is an examiner's statement of reasons for allowance:

The closest prior art of record (FR 2089 423) teaches a dyeing composition comprising a compound of a formula (I), wherein three nitrogen atoms are attached to a pyridine ring (see page I, formula (I)). However, the closest prior art of record (FR' 423), does not teach or disclose a dyeing composition or a process for dyeing keratin fibers comprising the compounds of the claimed formula (I), in which four nitrogen atoms are attached to a pyridine ring as claimed. Further, the prior art of record (FR' 423) does not teach or disclose a compound of the claimed formula (I), wherein four nitrogen atoms are attached to a pyridine ring as claimed. Accordingly, the claimed subject matter as a whole would not have been obvious to one having ordinary skill in the art of keratin fibers dyeing formulation or in the art of organic synthetic compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
